760 million
of euros committed
in ten years

800 000
people will benefit from a better
access to drinking water

1/3
of financing has a positive
impact on climate change

Present in Tanzania since 2008, AFD – the French Development Agency – offers financing solutions and technical assistance to support the Tanzanian government in achieving middle-income status by 2025.

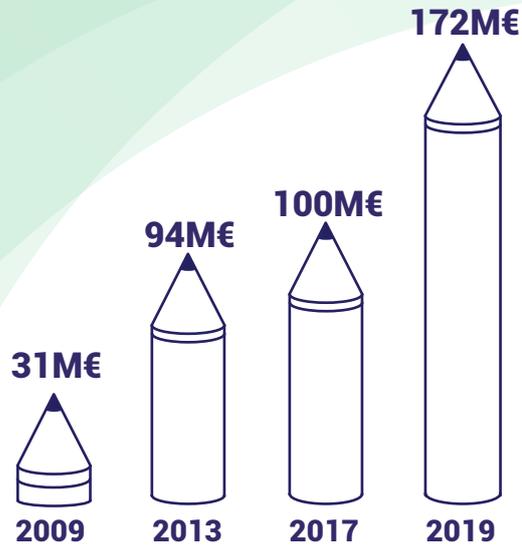

Our objective: to work together with the government, partners, local authorities, private sector and NGOs to reduce economic, social and territorial inequalities through the promotion of sustainable and inclusive development.

- Network modernisation and interconnection
- Rural electrification
- Development of renewable energies

Transport

- Urban public transport
- Integrated urban and mobility planning
- Rehabilitation and improvement of airport infrastructure

Diversification and new areas of intervention

Biodiversity, environment and tourism

Agriculture

Development of new tools

guarantees, non-sovereign loans

3 cross-cutting axes

GENDER

CLIMATE CHANGE

TECHNICAL ASSISTANCE

About AFD

The Agence Française de Développement (AFD) group is a public institution that finances, supports and accelerates transitions towards a more just and sustainable world.

As a French platform for official development assistance and sustainable development investment, we work with our partners to build shared solutions with and for the people of the Global South. Our teams are involved in more than 4,000 projects in 115 countries, in support of the common resources of humanity - climate, biodiversity, peace, gender equality, education, and health.

Thanks to our 75 years of expertise and our in-depth knowledge of countries where we are present, we offer tailor-made financing to emerging economies and developing countries. Our subsidiary Proparco also offers financing adapted to the private sector.
