The abbreviation €K signifies thousands of euros, €M signifies millions of euros and €bn signifies billions of euros.

A. Business report

Approvals

Total approvals (AFD and Proparco on their own behalf) amounted to €1.928bn at 30 June 2015 versus €1.571bn at 30 June 2014, excluding Proparco's refinancing operations (€850M).

In foreign countries, approvals granted totalled €1.628bn, up €342M (+27%) from 30 June 2014. This growth is the result of two opposing trends:

- marked increase in sovereign loans (€567M);
- reduction of Proparco's activity (-€116M, or 24%).

In the French Overseas Departments and Collectivities, approvals granted grew by 6%, reaching €300M at 30 June 2015, compared with €285M at 30 June 2014.

Lastly, approvals granted on behalf of third parties came to €302M in the first half of 2015, versus €61M in the first half of 2014, including €285M for the Green Climate Fund.

Disbursements

Total disbursements (AFD and Proparco on their own behalf) amounted to €1.584bn at 30 June 2015, versus €1.439bn at 30 June 2014.

✓ Activities in foreign countries

Disbursements in foreign countries stood at €783M at 30 June 2015 (-17%). Subsidy disbursements remained relatively stable (€99M in the first half of 2015 versus €116M in the same period of 2014), while loan disbursements fell sharply (€684M versus €829M).

✓ Activities in the French Overseas Departments and Collectivities

Disbursements came to €466M at 30 June 2015, compared with €171M at 30 June 2014. Financing granted to local authorities and to the public sector supporting public policies continued to grow in line with the 2014 trend.

✓ Proparco's activity

Proparco's disbursements for foreign loans and interests stood at €336M in the first half of 2015, compared with €323M in the same period of 2014, up 4%.

Financial results

The financial statements, prepared in accordance with International Financial Reporting Standards (IFRS), show a net income, Group share of €57M, versus €84M at 30 June 2014. This decrease is mainly due to the decline in value of financial instruments at fair value through profit and loss (-€30M compared with 30 June 2014).

Net banking income came to €267M in the first half of 2015, versus €253M in the first half of 2014.

The cost of risk increased from -€21M at 30 June 2014 to -€56M at 30 June 2015.

Prospects

For 2015, the Group's business plan provides for a volume of approvals totalling €8.3bn (for all operations), in line with the contractual targets and resources target (COM 2014-2016). Compared to 2014, this business plan assumes that AFD's activity will grow by 5% in foreign

countries, while activity will stabilise at €1.1bn for Proparco and €1.550bn for the French Overseas Departments and Collectivities.

The relaunch of non-sovereign activity, initiated in 2014, is a major priority in 2015. The tools established concern companies, banks and local authorities: contributing long-term financing, supporting partners and unveiling new goals (social business, financial innovation and currency risk hedging). The major canvassing effort carried out in 2014 will continue in 2015-2016 so that we can better understand needs in certain sectors and seek out new partners.

2015 will also be marked by the United Nations Climate Change Conference, to be held in Paris in November. In this context, AFD's commitments in relation to the fight against climate change (with at least 50% of loans approved in foreign countries offering a "climate co-benefit") are expected to be fulfilled.

By geographic region, AFD's projected activity in 2015 breaks down as follows:

- ✓ **Sub-Saharan Africa** remains the priority region, with stable overall projected activities of €2.5bn. AFD anticipates an increase in the amount of non-sovereign and non-subsidised loans and a relative stabilisation of activities under specific mandates (including general budget support). However, the exact amount of this increase is difficult to predict. Regarding the priority countries suffering from poverty, AFD's aim is a level of commitments at least equal to that of 2014 (approximately €800M);
- ✓ As for **the Mediterranean and Middle East**, AFD expects a volume of approvals totalling €920M. The political situation is such that it prevents planning for a significant recovery in this activity. AFD will continue its efforts on non-sovereign activity which, in 2014, accounted for 45% of its commitments. 2015 was also marked by the adoption in March of a new regional intervention framework for 2015-2018, based on three goals: supporting growth, social cohesion and managing scarce natural resources;
- ✓ In 2015, activity in the **Asia-Pacific** region is expected to increase in terms of volumes granted, with an approvals target of €1.17bn. This growth should continue to be driven by strong activity in South Asia, as well as funding for new projects in Central Asia and the Caucasus and the granting of our first loans in Burma. As in 2014, projects financed in 2015 shall illustrate AFD's proactive position on climate and urban issues in Asia and will help promote French expertise and French economic interests in the region;
- ✓ In 2015, AFD expects its **Latin American and Caribbean** activity to grow, with a commitment level slightly under €1bn. Sovereign commitments have been taken in Mexico and Colombia in the first half of the year, and activity should experience balanced growth thanks to the launch of operations in Peru, Ecuador and Bolivia, confirming AFD's position as a leading bilateral player across this sub-region. The activity will remain guided by the mobilisation of non-subsidised lending instruments. Efforts to promote French expertise and influence will remain a main priority, particularly in the field of renewable energy and the best management of land and natural resources. AFD will also seek to increase its participation as a leading backer for projects on the theme of "sustainable cities";
- ✓ For 2015, the volume of AFD activity in the **French Overseas Departments and Collectivities** may reach €1.55bn in commitments. AFD plans to continue sustained financing activity for public stakeholders. Regarding support for the overseas private sector, AFD's aim is to continue its efforts on direct loans (by continuing to develop its operations in the energy transition sector) and to maintain its proprietary guarantee

activity at a volume of around €50M. Finally, its services for BpiFrance are expected to reach a total value of €530M, a slight increase compared to 2014 with an upward trend.

Risk factors

The growth in total risks (outstandings and undisbursed balances of signed agreements) is mostly attributable to loans on AFD's own behalf, and on behalf of and at the risk of the French Government, which also increased in connection with the €430M loan granted to AID in 2014.

The increase in agreements signed for loans on AFD's own behalf was due primarily to sovereign loans (+8%) in foreign countries, which account for 57% of the change in foreign countries. Non-sovereign loans in foreign countries were up 9%, while loans in French Overseas Departments and Collectivities increased by only 3%.

In foreign countries, 55% of risk is concentrated in Sub-Saharan Africa (31%) and the Mediterranean (24%). The remaining exposure includes Asia (20%) and Latin America (20%), which continues to grow.

The overall quality of the non-sovereign risk portfolio remained stable in relation to 31/12/2014, although slightly weaker for the French Overseas Departments and Collectivities.

The portfolio of sovereign loans to foreign governments did slightly better in light of the improved ratings of certain countries representing a significant part of the portfolio (cf. Kenya moving from CR4/B to CR3/BB).

Notes to the financial statements

Agence Française de Développement is an industrial and commercial public undertaking tasked with financing development assistance. AFD funding amounts to €400M.

Its registered office is located at 5 rue Roland-Barthes – 75598 Paris cedex 12.

Listed on the Paris Trade and Companies Register under Number 775 665 599.

1. Accounting principles and assessment methods

1.1 Accounting standards applied to Agence Française de Développement

In accordance with Regulation 1606/2002 of the European Council, the consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union. The IFRS standards include the accounting standards issued by the International Accounting Standards Board (IASB) and the interpretations published by the IFRS International Committee.

The financial statements given in this document include the summary financial statements and the notes to the financial statements. They are presented in accordance with French Accounting Standards Authority (ANC) Recommendation 2013-04 concerning the format of the summary documents of companies subject to banking and finance regulations under international accounting standards, with IAS34 "Interim Financial Reporting" and with recommendation ANC 2001-R-02 allowing the provision of limited information in the notes to interim financial statements.

These consolidated financial statements are presented in thousands of euros.

1.2 Accounting principles and policies

The accounting principles and policies used in the preparation of the consolidated half-year financial statements for the period from 1 January to 30 June 2015 are identical to those applied to the consolidated financial statements for the year ended on 31 December 2014, prepared in accordance with IFRS accounting principles and detailed in paragraph 2.2 "Accounting principles and policies" of the 2014 consolidated financial statements.

The standards and interpretations used in the financial statements as at 31 December 2014 and detailed in paragraph 3 "Standards applicable as at 31 December 2014", have been applied in full to these half-year statements.

These standards and amendments were supplemented by the provisions of IFRS standards as adopted by the European Union which first became compulsory on 1 January 2015:

- Interpretation IFRIC 21 related to the recognition of levies charged by public authorities.

In accordance with IFRIC 21, expenses and liabilities corresponding to levies imposed by public authorities are recognised when payment is triggered in accordance with the relevant legislation. The liability is recognised in full at a certain date or progressively, as applicable. As a consequence, certain levies are no longer spread over the duration of the financial year (e.g. ACPR, property taxes, C3S) and may be deferred to another financial year (as in the case of the C3S).

Its application at 30 June 2015 led to a €4.9M increase in AFD Group's overheads.

As a comparison, in accordance with EU regulation 634-2014 of 13 June 2014, the retrospective application of this interpretation to AFD's financial statements at 30/06/2014 would have added an additional €2.7M in costs.

- Amendment to IFRS 13 "Fair Value Measurement":

This new amendment extends to non-financial instruments the scope of the exception for measuring the fair value of a group of assets and liabilities on a net basis with offsetting positions in market risks or credit risks.

This amendment had no impact on AFD's financial statements at 30 June 2015.

1.3. Consolidation scope

AFD's consolidated financial statements cover all fully-controlled enterprises, joint ventures and companies on which the Institution exerts a significant influence.

The following are not included in the consolidation scope:

- companies of no real significance,
- foreign companies in which AFD holds a minority interest and does not exercise significant influence due to the companies being either fully or partially state-owned.
-

as a percentage of ownership	30/06/2015	30/06/2014	31/12/2014
Fully consolidated companies			
Soderag	100.00	100.00	100.00
Proparco	64.17	57.48	63.93
Sogefom	60.00	60.00	60.00
Fisea	100.00	100.00	100.00
Propasia	64.17	57.48	63.93
Companies accounted for by the equity method			
Société Immobilière de Nouvelle Calédonie	50.00	50.00	50.00
Société Immobilière de la Martinique	22.27	22.27	22.27
Banque Socredo	35.00	35.00	35.00

1.4 Consolidation methods

The following consolidation methods are used:

- ✓ Full consolidation

All accounts are included, line item by line item, both on and off AFD's balance sheet, while reporting the claims of "minority shareholders". The same process is used for income statements.

Proparco, Soderag, Sogefom, Fisea and Propasia are fully consolidated.

- ✓ Equity method

The equity method consists in measuring interest by using the company's net position and calculating a share of its restated income according to the stake held in its capital.

At 30 June 2015, this method was used for three companies in which AFD directly or indirectly holds a stake of between 20% and 50% and over which “significant influence” can be proven: *Société Immobilière de Nouvelle-Calédonie* (SIC), *Société Immobilière de Martinique* (Simar) and Socredo.

✓ Comments on other companies

AFD also has holdings in a number of companies over whose management it has no significant influence. These companies are not consolidated, either fully or using the equity method. They are recorded under “available-for-sale financial assets”.

2. Seasonal items

Based on their operations, the Group's companies do not experience seasonal cycles impacting the consolidated half-year financial statements.

3. Events of the period

✓ Allocation of 2014 net income

Pursuant to Article 79 of the amending Finance Bill 2001-1276 of 28 December 2001, the amount of the dividend paid by AFD to the French State is determined by ministerial order after review of the Company's financial position and a report by the Board of Directors.

The 2014 financial statements were approved by the Board of Directors on 13 April 2015. However, as the interministerial order is yet to be issued, the 2014 net income has been recorded in the income statement pending its allocation.

✓ Financing of the Group's activity

To finance the growth in loan activity on its own behalf, in the first half of the year AFD made four bond issues in the form of public issues and matched two other existing issues for a total volume of €3.4bn.

4. Significant events after 30 June 2015

No significant events occurred after 30 June that have not been taken into account in the preparation of the financial statements at this date.

5 Notes to the financial statements at 30/06/2015

Note 8 – Financial assets and liabilities measured at fair value

The fair value of a financial asset or liability is the quoted market price if it is traded on an active market (Level 1). If there is no market or reliable data, the fair value is determined based on the current market value of a comparable instrument or by discounting the future cash flows (Level 2). Level 3 includes instruments for which measurement relies on non-observable market data. No transfer of financial assets or liabilities to level 3 was identified in the period.

<i>In thousands of euros</i>	30/06/2015 IFRS				31/12/2014 IFRS

The contribution to the Single Resolution Mechanism (SRM) for the 2015 financial year is estimated at €4M¹. In accordance with IFRIC 21, it was recognised in full at 30/06/2015 (€2M under French standards and €2M under the IFRS).

The retroactive application of IFRIC 21 at 1 January 2014 would have entailed the restatement of taxes at 30/06/2014 (+ €2.7M) and at 31/12/2014 (- €0.3M).

¹ Based on the information available at 30/06/2015.

Note 13 – Cost of risk

In thousands of euros	30/06/2015 IFRS			30/06/2014 IFRS	31/12/2014 IFRS

Individual impairment of non-sovereign loans	51,298	15,622	(35,675)	3,943	(28,625)
Losses on principal of bad loans	7,528	8	(7,520)	(379)	(588)
Total	92,360	36,742	(55,618)	(21,121)	(68,843)

Note 14 – Equity-accounted companies

In thousands of euros	30/06/2015 IFRS		30/06/2014 IFRS		31/12/2014 IFRS	
	Balance Sheet	Income	Balance Sheet	Income	Balance Sheet	Income
SIC	43,754	2,880	54,009	77	54,080	147
Simar	19,061	1,233	16,882	1,316	17,828	2,263
Socredo	94,515	1,519	92,875	1,591	94,670	3,386
Total	157,330	5,632	163,766	2,984	166,578	5,796

In previous financial years, *Société Immobilière de Nouvelle Calédonie* (SIC) entered into hedging swap agreements but failed to report their value in the relevant consolidation package to be included in AFD Group's income. The correction of this mistake by SIC at 30/06/2015 impacted the share of the net assets of the companies consolidated with the equity method for €11.752M against (i) the Group's equity for the portion pertaining to the cumulated changes in fair value at 31 December 2014 (- €14.435M) and (ii) SIC's contribution to the Group's income (€2.683M) resulting from fair value changes in the first half of 2015.

5.3. Additional Information

Note 15 – Commitments

Guarantee commitments made to customers	553,564	593,098

Commitments received exclude transactions on behalf of the French State.

C. Report of the Statutory Auditors on the 2015 half-year financial information

Report of the Statutory Auditors on the 2015 half-year financial information

From 1 January 2015 to 30 June 2015

To the Shareholders,

In compliance with the assignment entrusted to us by your Board of Directors, and in accordance with Article L. 451-1-2 III of the French Monetary and Financial Code, we carried out the following tasks:

- a limited review of Agence Française de Développement's condensed consolidated half-year financial statements for the period from 1 January 2015 to 30 June 2015, attached hereto;
- a check of the information provided in the half-year business report.

These condensed consolidated half-year financial statements are the responsibility of the Chief Executive Officer. Our role is to express an opinion on these financial statements based on our limited review.

I - Conclusion on the financial statements

We conducted our limited review in accordance with the professional standards applicable in France. A limited review essentially involves meeting the management members in charge of accounting and financial affairs and applying analytical procedures. This work is less extensive than an audit performed in accordance with the professional standards applicable in France. As a consequence, the assurance that the financial statements do not present significant anomalies based on a limited review is only moderate and not as strong as the assurance obtained from a full audit.

Based on our limited review, we did not identify any significant anomalies which, in accordance with IFRS standards as adopted by the European Union, may call into question the truthfulness and fairness of the consolidated half-year financial statements and the faithful representation they give of the assets and financial position at the end of the semester and of the profit/loss for the relevant semester generated by the persons and entities included in the consolidation scope.

Without casting doubt on the opinion expressed above, we call your attention to Note 1.b. "Principles and methods" to the condensed consolidated half-year financial statements, detailing the impact of the first application of interpretation IFRIC 21.

II - Special verification

We also checked the information provided in the half-year business report attached to the condensed consolidated half-year financial statements object of our limited review.

We have no matters to report as to its fair presentation and its consistency with the condensed consolidated half-year financial statements.

D. Person responsible for the half-year financial statements

Name and position

Anne Paugam: Chief Executive Officer

Certification of the person responsible

I certify that to the best of my knowledge the condensed financial statements for the past semester are drawn up in accordance with the accounting standards applicable and give a true and fair view of the assets, financial position and results of the company and all the subsidiaries included in the scope of consolidation. The management half-year report featured on page 5 faithfully presents the significant events having occurred in the first half of the financial year and their impact on the financial statements, and describes the primary risks and uncertainties for the second half of the financial year.

Signed in Paris on 3 August 2015

The Chief Executive Officer

Anne Paugam
